- Follow the Setup Wizard to Create an Event

Plan New Event

## Provide Guest QR Code

- Open the Event
- Go to Options > Event Location > Accessibility
- Connect your hardware to download the QR Code. Here you can print table cards and create posters or flyers. The link can also be copied to provide the link via email or text.

## Run the Event

- When the event starts, make an announcement to the Guests about uploading images to Party Print. Let them know that the pictures will be printed and displayed on the slideshow.
